Local Favorite Restaurant Will Reopen! Mellon Certified Restoration Mitigates Barnaby's Restaurant!

On Sunday, May 7th in the very early morning hours, the Haverford Township police departments were receiving multiple calls that the well-known Barnaby's restaurant was on fire. Upon arrival, the deck was fully engulfed with heavy smoke coming from the building. It was quickly elevated to a two-alarm fire. Barnaby's outside deck was destroyed by the fire and the inside of the building had extensive smoke and water damage. Luckily, there were no injuries; however, there were private vehicles left in the parking lot that were damaged by the intense heat from the flames.

As the fire was still being extinguished, the MCR management team was on site and prepared to begin mitigation as requested by the client. Mellon Certified Restoration began to mobilize their trailers, equipment and dispatched multiple

waste management companies to provide dozens of dumpsters. Later, MCR brought desiccant dehumidifier trailers in to adequately dry the structure.

Bill Daley, owner of Barnaby's, opened this popular pub and eating establishment 20 years ago. Not only would the fire affect him, but also his 100 employees that he considers "Like Family".

After a devastation such as this, employees might think "I don't have a job to go to", but not our Barnaby's employees. These very capable bartenders showed up every day to help restore the establishment they call home.

"Managing all the logistics of manpower and subcontractors has been one of the most challenging aspects I have encountered on the job" stated Chris Maluchnik, Corporate Emergency Service Manager for MCR. Joe Carminati, Commercial Sales Manager for MCR said "The most rewarding part of this job has been working with the owners because they are hands-on and have an open line of communication with us." Additionally, Dan Hurst, general manager of Barnaby's, agreed with Joe's statement about communication between MCR and Barnaby's. Dan has been very satisfied with MCR's responsiveness and professionalism.

Thursday after the fire, painted rocks were found outside the on-site job trailer. The objects were placed there by Delaware Valley Rocks Club to show the communities' support to the staff of Barnaby's. This group promotes the community activity that simply wants to

"Spread Joy".
